

Overview

Nat Gas Hub’s Easy Integration adapter allow for an end-to-end bi-directional flow of data between EDI pipelines and your ETRM system. Our Integration solution will streamline EDI transmissions, offer greater cyber-security, and meet regulatory requirements. This will save your organization time, resources, and money.

Our integration solution gives your ETRM system access to over 100 pipes with the ability to send and receive unlimited EDI files. This NAESB-certified solution currently processes over 4 million EDI files per month.

Capabilities
